### Franklin Road Streetscape Project Update

**September 9, 2020 – Nowak & Fraus Engineers**, Consulting Engineer for the Village of Franklin, would like to take this opportunity to update you on the status of the improvements to your neighborhood.

Last week, the contractor team continued along the east side of Franklin Road. Work included the completion of remaining pavement and walk removals, along with placement of most of the new walk aggregate base. Crews began preparing for concrete and the first segments of electrical conduit for the new street lighting was placed.

The tasks anticipated for the shortened week of September 7<sup>th</sup>:

- The contractor will continue with the installation of conduit for street lighting
- Sub-contractor will begin forming for the new sidewalk, with the goal of beginning the first concrete placement by weeks end.

With the wet and rainy weather that seems to have been a weekly occurrence over the last couple weeks, the contractor team is also continuing to monitor work zone areas for any problematic ponding of water. Any business or residents within the work zone should reach out with any known issues so those can be investigated.

If there are any specific concerns or questions regarding the project as we get started, feel free to contact Steve Sutton, Nowak & Fraus Engineers Project Engineer, at 248-635-6571 or email ([swsutton@nfe-engr.com](mailto:swsutton@nfe-engr.com)), or our on-site construction engineer, Mark Wilson, 248-635-6504 ([mwilson@nfe-engr.com](mailto:mwilson@nfe-engr.com)), at any time. To aid in communicating the progress of the overall project, and to advise on upcoming work that is scheduled, the Village has created an email distribution list, for weekly email notifications. If you would like to be

added to that list for notifications, please forward your email address to Eileen Pulker at [epulker@franklin.mi.us](mailto:epulker@franklin.mi.us).
